# CSE 402 Quiz Notice (Modified)

## Date: August 1, 2018 (Wednesday)

## Time: 5:10 PM

## Seat Arrangement:

| Room No | Subsections |
|---------|-------------|
| 103 | A1 |
| 104 | A2 |
| 108 | B1 |
| 109 | B2+previous year students |

## Syllabus:

In the sessional, we have completed the following assignments.

1. Uninformed Search (Prince's Tour)
2. A* Search (n-puzzles, grid path finding)
3. Local Search (TSP)
4. Adversarial Search (Mancala, Nim, Four-in-a-row(Four row Tic-Tac-Toe))
5. CSP Modeling (Sudoku)

For quiz, a student should study related basic theory and practical implementations of the above mentioned topics. For example, your study of basic theory and practical implementations for A* search should not be limited only to n-puzzles, grid path finding.
